Mild A.M. growing colder  
Evening cold. Sun all day.

- New Year's Day -

This A.M. after breakfast I went over to  
Dorchester and worked  
with Joe Churchill till  
9.15 P.M. over his last  
summer's Supervision,  
Solidago & some of his  
Cisterns. It was a big  
job but we enjoy it.  
Mary Cushing was at  
home. Anna is in  
Philadelphia.

There were puzzling  
points to try to settle.  
Some must be settled later.

I got home by 10.30.  
It makes a long day.

I have many Xmas  
letters to write but have  
made a beginning.  
May I keep well this year.

MON. JAN. 2, 1922

Wea

Clear cold.  
Real winter.

I have kept in all day writing Xmas letters and seeing callers &c. &c.

George called, and later I had a very pleasant call from Mrs. Newbegin's younger son & daughter. They have grown much since I saw them last and they are very pleasant and communicative indeed.

I have spent quite a bit of time to-day over my acct. - We begin soon again on our tax papers - I so wish I didn't have them to attend to. They are very bothersome -  
Heaven's brilliant star-eyes

TUES. JAN. 3, 1922

Wea

Clear, bracing, light  
cloud at times.

It has been a glorious  
day. I have been busy  
at Shakespeare work.

This morning I walked  
to Har. Sq. and made a  
deposit. B. C. balanced my  
acct. on my return.

Miss Brown & I have  
hung my crayon and  
we are perfectly satisfied,  
indeed more so.

May Dexter & I with Lois  
L. Howe drove to & from the  
Lanes this evening to Shakes-  
peare Club. Annual  
meeting. Old board re-  
elected. I start on my  
40<sup>th</sup> year as Secy. Business  
done, we read Acts I & II  
of Richard II. very good reading.  
Several guests, Mr. Crothers  
among others. Home by 11 P.M.

Clear and cloudy, cold

At home all day  
Worked on Shakespeare  
records, casting a play  
printing it and getting  
the package off in  
the mail. This took  
all the P.M. Miss  
Brown helped me.

Then I have been  
writing Christmas  
notes and phoning.

I learn that Miss Day  
is at the Cambridge  
Hospital and will  
have a serious ope-  
ration at 8 A.M. To-  
morrow. I pray for  
the best. I had no  
idea she was ill at  
all -

Emile wants me to  
dine with him this  
evening. These times are good -

Cloud & sun, warm.

This A.M. I finished  
Underwood's "Wild Brother",  
well told, touching.

Then I went in to  
Y.R.L., and we lunched  
together at "Grafian"  
on Battle St. Then I did  
one or two errands and came  
home.

The rest of the time  
except for a very pleasant  
call on Mrs. Cole & Mumsey,  
I have been writing  
Christmas notes -

Miss Brown has been  
all day with her brother  
& his family at Mr. Gould's  
who has been sick so long.  
She got back here by 10 P.M.  
and some later they  
phoned her that he  
had passed away -  
Sad but a blessing.

Sun. very mild

Miss Brown went away  
for the day. Her brother  
left me at the Co. Wh.  
and I met there N.W. Eggle-  
ston, Weatherly, J.F. Collins,  
Wegand, Fernald, Robinson.  
I had a good talk  
with Eggleston whom  
I haven't seen for a  
long time.

Wrote letters this P.M.  
at 6 P.M. and wrote  
Emile & Mrs. Williams  
Margaret, Mr. Eaton, J.R.  
Churchill, B.L. Roberts  
Drove to Box. Celula  
Eggleston gave us a talk  
on our two *Dicentra*s in  
relation to poisons in  
S.W. Va. Wegand gave a sketch  
of his summer auto tour. The  
Kumertons showed water colors.  
Home by auto. Clear moon.

Wea

Clear calm mild. Very cold

Busy this A.M. on botanical  
work & Xmas letters.

This P.M. I walked over  
to 26 Lancaster St. & called  
upon Mr. & Mrs. Eddy who are  
settled there for the winter.

I had a very pleasant talk  
with them. They are com-  
fortably settled in 2 large  
rooms on the 2<sup>d</sup> floor with  
good outlook & sun. Then  
I crossed over and called  
on Mr. & Mrs. Matthews &  
sat  $\frac{1}{2}$  hr with them.  
Then walked home to tea.

This evening I took my bag  
by Miss Richardson up to Mary's and  
it was discussed freely by us three.  
The only suggestion is that it may  
be a bit older than I am. It  
is hard to tell. I shall have gone,  
see it. Very clear & cold.

SUN. JAN. 8, 1922

Wea

Clear, cold -

This morning I spent in  
writing Xmas letters mainly.

At 12:30 Mr. Crosser called  
not having got my letter  
not to come. He has moved.

I had a pleasant talk for  
some time before he left &  
he will come next week.

After a rather hurried  
dinner Miss Gorman & I went  
down to her brother's funeral  
on Auburn St. Mr. Balson took  
us down. There was a very

large gathering there of rela-  
tives and there in the 3rd  
Elevated Opt. many flowers.

After the regular service  
there was another service

by the Odd Fellows. Then  
the 3rd Elev. men escorted

the body some distance. I drove home.

Mr. S. Thacher called to say and told  
me of 2 services, Grosbeak & Greenfield

This Am. I wrote letters  
then walked to the Coop.  
with my new suit which is too  
tight. Then I took the car to the  
Ran. & sat 1/2 hr. talking with him.  
He is certainly better, I understand  
him more, but it is a long way still.  
Leaving him I walked home via Upland  
Road 1/2 hr. fr. his house to mine -

This P.M. I went and had a very  
nice call from Alice Wechsler. She  
is very much on the go now, what with  
parties, etc. She & Ellen Greenough  
have been to Shelburne and had a  
great time on snow shoes -

This evening I went down to the  
Harv. Union and heard Count Tol-  
stoy, son of Count Leo Tolstoy talk on the  
conditions in Russia, the rise of the  
Bolsheviks, the peasant class etc etc  
It was most illuminating and interesting.

\* This Am. Miss Zoume & I went down to Robinson Hall to see F. S. Matthews memorial for Campden, N.H. It is a very beautiful piece of work.

Then I went to Dr. H. where I saw Robinson, Fennell, Weigand, Weatherly, Eggleston. I did some work. Later I took Eggleston back to lunch with me. We had a good talk over it times.

This afternoon I spent mainly writing letters, after E. left.

Evening also spent writing & phoning. I still have many letters which I enjoy writing. I want to answer all my cards as well as other gifts. Near the day (3/12) clear,

Snow, rain, fierce wind.

Before I realized what was coming, we both went to Boston. I bought 2 pairs of pants at Kennedy's and then went to R.C.'s.

I spent some time talking with Miss Booth. He finally phoned that he wouldn't come. Miss B. had a bad headache. I went to lunch with her & we had a talk over the future of the office. - Returning to the Cambridge Bldg, I left Miss B. and returned home. - The wind was violent and snow & rain were whirling.

Miss Brown returned after 9 o'clock. She was pretty wet. I have written both notes for A.S.P. and have consumed some Christmas cards.

A.S.P. Magul invites me to the Symphony Concert, next Sat.

Clear, calm, cold -

A fine day, but rough & icy under foot, and dangerous walking as almost no ashes are on the sidewalks. I walked to St. M. to the Trust Co. & Co's. & then on to Gr. Hl. where I saw all the men and walked back with them.

This P.M. I have been at home, writing and resting. This evening I sat reading "A Traveller in Little Things" by Hudson by the open fire. It is a charming book.

I have had a long phone talk with Mrs. Gardwin in Winchester. To-morrow I go over to Gray Hl. in the evening.

for a trip to Goodspeed's  
where I have changed the  
Audubon plate. Just now  
gave me for Life of H. H. Hy-  
gerson "Americanization of  
Soc".

Read some and wrote X-  
mas letters.

By 5-5:30 P.M. Weatherly  
& Joe Churchill came  
and we had a real  
nice talk in the fore-  
noon had supper, and  
then walked over to the  
Club Hl. where 13 of us  
gathered and worked  
hard - B. L. R., J. R. C. & 9  
left at 10 P.M.

The air was clear & sharp,  
& the brilliant moon (quite  
eclipsed) Orion, & Antares major.

Clear calm mild.

This Am. busy at home  
George & I took the train  
for N. Sta (12:50) for Salem.  
We walked through Chestnut  
St. viewing the old door-ways,  
and then to the Peabody <sup>(Academy)</sup> Mus. where  
I met John Robinson & had a short  
talk. He is rather feeble. Then Mrs.  
A. P. Morse took us in church and we  
went through every room, and had its  
treasures explained - marvellous -  
Then we made a brief survey of the  
Essex Inst. That and the other  
sight must be done another time  
5 P.M. to Boston. Geo. was home.  
I had tea in Cop City Sq., went to the  
Public Library & saw the Indian  
Photos. Wonderful. Then walked  
up to Symphony Hall. There met  
A. C. Sprague and we enjoyed  
heartily the Symphony Con-  
cert. Wonderful music -  
Home by 11:30 tired!

Clear, calm, bracing -

Busy in my study, this A.M.

More Greenman & F. A. Schrepfer came to dinner 1.15 and stayed till 5 P.M. We had a very pleasant time. Schrepfer told us a great deal about the war. More of the inside life in hospitals, field &c than I ever knew before. We were all very much interested. He had a wonderful experience.

After they had gone M. L. F. & ux or called and we had a good talk. Mrs. L. looked well. I haven't seen her for long.

After supper I devoted my time to letter writing and have made much progress. I shall get through some of my. Of course I have regular correspondence besides - It is impossible to write the last letter - I never can do that. Fine moon to-night.

Clear, calm, cool -

This A.M. I went to the  
Little Blog + discussed points  
in my 1919 Federal Tax paper.  
Then I walked to J.R.C.'s. and  
in the afternoon I found Miss Broth  
at Registry of Deeds. She has  
taken my papers, and is going to  
the registry of deeds where she  
will get a correct reply. Then  
I returned home.

P.M. at home writing.

Evening with Soc. to  
Went. Club. Big meeting.  
40 or more - J. Prentiss  
Goldman talked on Bird  
Bandings. Washington Post  
man present. It is a  
strong move to stir up bird  
banding. The talk was very  
interesting and shows some  
wonderful possibilities. I met  
Miss Wheeler, Farley  
to the Home by 10, 45.

car. Reached home by 6:00. Evening at home

Clear, cold.

Have been working to-day on our local flora. I walked over to the Gray Herb. This morning to settle a few problems - have a note on the discovery of *Theridium procumbens*. *Theridium rubicundum* for our paper - we have reached the Ericaceae. The event is recorded in *July 1895*. It is pathetic -

This evening I auto'd over to the Trans Union to the reception of Mrs. & Mrs. Lowell. A death in the family changed the place from the Jones' house - It was a large and very successful affair. I met loads of friends, some going back to the old school to say - Among them Chas. F. Jones, Pres. of the Union. Dr. Ali Porter - They were very cordial. The dancing was the limit. Dr. Porter introduced his wife. I talked with lots of people. St. Bernard & I drove him home at 11:15.

Clear - cold.

This Morn. I went to the  
Gr. Bld. and stayed a while.

This P.M. I went, then  
went to 142 Marlboro St  
at a tea by Mrs. Henry Chau-  
rney for Shellburn friends.

Met Mr. Mrs. C. Barber,  
her 2 sisters & brother  
Miss Painters (2), Prof. Tuxton  
Miss Harris, Mr. Mrs. Abbott,  
very pleasant talk.

Then I went out to Harv.  
Got my tea at a  
restaurant and went over  
to the Harvard Union  
to hear Admiral Sims.

I suppose there were at  
least 600 students pre-  
sent, with great en-  
thusiasm. It was a  
notable occasion.

Sims says submarines  
must be the safety of  
our coast —

Clear, very cold.

I have kept at home both morning & afternoon. I was pretty busy when Mrs. Marks phoned me that Mrs. Marks was suddenly taken ill and they, of course, could not have the next Shaker page Old on Jan. 31. The hint of illness was not certain yet. I am more than sorry for her & hers. I have got the Bradfords to take the meeting. They are always so ready.

This evening I auto'd in to Charlie Townsend's to the "The Dine". Only 5 of us met: Townsend, Thayer, Jeffries, Jackson & I. Unusually small number. Spelman, has sickness in Mrs. S's bro.; Balablock, tooth ache, Goodall, wife's illness, from bed Rand at home for how long!! I saw Mrs. T. & Frances. Pleasant, quiet time. Auto'd back

from Lunt May for Life & Letter of  
10.00. Heggman (B. Perry) Americanization  
of 20.00 Bolk, & 1/2 Green Corners, in part.

Cloudy, very light snow at intervals. Mild.

This A.M. I walked to Mr. Phe. and settled some bot. problems. Walked home. Later I took the Cornus canadensis to the apothecaries (Huron Ave.) and sent it back to Dr. Otley, Wellston, Ill.

This P.M. I read in "Winter Comes" for some time. It is fascinating.

Orin Crosser came up in the P.M. and took dinner with us and I showed him my Herbarium and told him how I collected, pressed & mounted plants. It was a hurried exposition. I like to help anybody in this way, who is really ready and anxious to learn. Crosser goes tonight west.

Very very hard. 5 days work.

I hear Richard Sustis has bought the house next me.

Mr. & Mrs. Eddy came to dinner (1 P.M.) & stayed till 4.15.

We had a real good social time. He showed them over the house, and they were interested in the old relics.

The herbarium interested them very much. I had selected representative sheets to save time. It was very very pleasant. It had been a work of over 41 years.

I have read a good deal of it in "If Winter Comes". It is a fine written story.

Clear, calm, mild.

"Tea for 3". It is a  
strange play with a  
very frolic, excessive  
exaggeration all through  
and, to me, a very re-  
pulsive ending.  
It was very well acted  
indeed, however.

I learned at the hall

Colonial Society's Income Below Its  
Requirements

Cannot Publish Volumes Fast as  
Desirable

This Fact Is Pointed Out at Annual  
Meeting

Fred Norris Robinson Is Elected  
Head

The annual meeting of the Colonial Society of Massachusetts was held last evening at the Algonquin Club, and was largely attended. Dr. Fred N. Robinson, the president, was in the chair. The treasurer, William C. Endicott, presented the annual report, showing that the endowment of the society amounts to \$117,000. The annual report of the council was presented by Rev. Charles E. Park, and extracts follow:

"The society is reminded that the cost of publishing a single volume is at present about \$1000. Our annual income from all sources is a trifle over \$2000. Deducting salaries and incidental expenses, including the annual dinner, about \$3500 a year is left for publication expenses. It is manifestly impossible to publish at the rate of two or more volumes a year on an income that warrants only one and a quarter volumes a year. As in many other enterprises our usefulness is limited by our resources. Members can help by transmuting their annual dues to the life membership basis. To do this adds \$100 to the society's endowment and frees the member from all further dues.

### Saddened by Founder's Death

"The year has been saddened by the death of the founder, who was also our treasurer, and our never-failing source of energy and enthusiasm—Henry Herbert Edes. At their last meeting your council adopted the following minute:

The passing of HENRY HERBERT EDES, which occurred on the 13th of October, brought sorrow to the heart of every member of the council. Founder of the society, its treasurer from the beginning, sole survivor but one of the original council, seldom absent from a meeting, he brought to our deliberations a deep knowledge of the needs of such a society, an experience of thirty years, and a profound and touching interest in the fortunes of the society, over which he watched as a parent his child. No detail was too trivial, no labor however irksome, was shirked, in an endeavor to forward the welfare of the society. To him, in collaboration with the late John Wilson, is due the beautiful format of the society's publications. His earnestness, sincerity and boundless enthusiasm were infectious, and doubtless were responsible for the success his appeals rarely failed to meet with. Beneath his dominant personality was a tenderness perhaps unsuspected by the stranger or casual acquaintance, but well known to his intimates, to whom he never tired of showing kindnesses. His cordial welcome at our meetings, his emphatic expressions of opinion, his vigorous and outspoken comments on men and things, his inexhaustible fund of amusing and entertaining anecdotes of noted Boston worthies, his reluctant farewell—these will dwell always in our memories.

## New Members Elected

'Election to membership during the year have been as follows: Resident members: Wilbur Cortez Abbott, George Pomeroy Anderson, Walter Austin, Francis Tiffany Bowles, Homer Gage; corresponding members: James Benjamin Wilbur, John Pierpont Morgan; honorary members: John Singer Sargent.

'Losses by death during the year have been as follows:

'Lincoln Newton Kinnicutt—Loyal, gentle, unassuming, true-hearted, a man of great chivalry of soul; a champion of the weak, a lover of children and animals; a man who could be loved instinctively and admired without effort.

'Williston Walker—Provost of Yale University and professor of church history. Of the highest scholarly attainments and a recognized authority in his chosen field. He was yet without any trace of intellectual arrogance. His friendship and help were always available. In his absorption in history, he never lost sight of the purpose of historical knowledge, the guidance and enrichment of human life in the years to come.

'Richard Middlecott Saltonstall—In him the nobler traits of a distinguished ancestry found their full embodiment. A man of great sagacity and breadth of interest, his skill in practical affairs was enlivened by a capacity for harboring noble visions and dreaming great dreams; and his worldly interests were brightened by singularly clean pleasures and profitable hobbies. His work was play to him, and his play always had ever its more serious, more useful side.

Edward Mussey Hartwell—Secretary of the statistics department of the city of Boston. The mention of this office gives no indication whatever of the value of his services to city and nation. He was teacher, physician, statistician, investigator and writer. It was his aim in life to better the conditions of those who needed help; children and the laboring class, invalids and the blind. His kindness was genuine; he was modest without affectation; he was manly and therefore lovable; he endeared himself greatly to those who knew him, for his friendship was life-long and was a constant source of helpfulness and cheer.

Henry Herbert Edes—Founder of this Colonial Society and from the first its treasurer. His best tribute is written within the hearts of his associates, and his constant devotion and untiring enthusiasm have their most eloquent memorial in this society which owes to him its existence and prosperity. We contemplate his death with emotions of grief mingled with a sort of terror, for the efficiency with which he prosecuted his many purposes makes his loss well-nigh irreparable."

Samuel Williston presented the report of the nominating committee, as follows, and the members therein named were unanimously elected: /

### Robinson Is Elected President

President, Fred Norris Robinson; Vice presidents, Arthur Prentice Rugg and George Foot Moore; recording secretary, Henry Winchester Cunningham; corresponding secretary, Charles Edwards Park; treasurer, William Crowninshield Endicott; registrar, Alfred Johnson; member of the council for three years, Francis Russell Hart.

After the meeting, dinner was served to the members and their guests. President Robinson began his remarks by paying tribute to the late Henry H. Edes. Speeches were made by Right Rev. Charles Lewis Slattery, Dean Roscoe Pound, Morris Gray, Admiral Francis Tiffany Bowles, George Parker Winship and Professor George Lyman Kittredge.

# DIES WRAPPING XMAS PRESENTS

Mrs. William Lyman Underwood, Wife of Lecturer and Naturalist

## ACTIVE IN BELMONT CHARITABLE WORK

The funeral of Mrs. Ida Cushing Underwood, wife of Prof. William Lyman Underwood, lecturer and naturalist, will be held tomorrow afternoon at 3 o'clock at her home, 50 Common street, Belmont. She died of heart disease Sunday while wrapping Christmas presents for her relatives and friends.

She was born 62 years ago, the daughter of Hayward Peirce Cushing, and graduated from Vassar College in 1883. She was married to Mr. Underwood four years later. She always accompanied her husband, who is a professor at Technology, on his lecture trips, and in his writings and talks he invariably referred to her as "comrade." Mrs. Underwood organized the Unity Club in Belmont and had been active in charitable work there.

Besides her husband, she is survived by a son, W. J. Underwood, a grandson, William James Underwood, a sister, Florence M. Cushing, a trustee of Vassar, and a brother, Dr. Hayward W. Cushing, a Back Bay physician.

Prof. Underwood has been a lecturer in the biological department at Technology for 22 years. He has lectured and written for more than 20 years on bacteriology as applied to canning and preserving industries, on wild life in field and forest, on the gypsy and brown tail moth problems and on mosquitoes and their extermination. He has been chairman of the Belmont board of health since 1902.

## MRS. IDA CUSHING UNDERWOOD

She Was Wife of Professor Underwood  
of Technology and a Graduate of  
Vassar College in Class of '83

Ida Cushing Underwood, wife of William Lyman Underwood, lecturer and naturalist, who has died at their home, 50 Common street, Belmont, was sixty-two years old. She leaves besides her husband one son, William J. Underwood, associated with the William Underwood Company, and one grandson, William Julian Underwood.

Mrs. Underwood was graduated from Vassar College in 1883 and married Mr. Underwood in 1887. At the time he was associated with the William Underwood Company in the canning industries and found baffling scientific problems. Mrs. Underwood, through natural capabilities and training was of a scientific turn of mind and took an active part with her husband in solving these problems when he became associated with the Massachusetts Institute of Technology. They were both intensely interested in natural history and wild life in the field and forest and together they made frequent trips into the wilds of Maine and Canada, Wyoming, California and Florida.

She was his assistant in all his successful endeavors. Together they had written extensively on natural subjects. He is a well-known lecturer on these subjects.

Throughout his lectures and books there appear many pictures of Mrs. Underwood assisting him and he always speaks of her in them as "Comrade."

Mrs. Underwood was the founder of the Unity Club in connection with the First Congregational Church of Belmont (Unit-

arian) and was always active in charities. Her father was Hayward Peirce Cushing, a member of the firm of Silas Peirce & Co., and a member of an old Boston family.

Club, Dining Club in succession

Rain during the day, clearing in evening - mild.

Got home to-day. My bruises are going to disappear with light but I am mighty lucky to have escaped much worse. My knees are sore and my nose. But nothing was broken.

The scarred nose doesn't look very attractive but it will come out all right -

Hal Kennedy called this evening, having left his wife at Radcliffe and we had a very long talk. He told me all about the family. His wife is much better, Sue Clair also. Gordon is much overgrown and has a tutor every day. Went to see him.

I have some considerable bat. work quietly to-day. Hope to steady up left.

Clear bright cool  
 At home 8 A.M. & P.M.  
 Worked in my herbarium  
 on the Blaschka grasses  
 Had a call from Charles  
 Batchelder. He is not  
 feeling well. On leaving  
 he took a pkg. of plants I  
 had named for him.

This evening I drove over  
 to Mrs. Millock's to the  
 Shakespeare Club which  
 was a very pleasant af-  
 fair & had a large com-  
 pany but the reading  
 was good and the meet-  
 ing a success. I got  
 home by Sheridan at  
 10.45.

George Rose & Joan Fur-  
 ston called today to see  
 how I was. I am getting  
 rapidly over my fall  
 which was so nearly a  
 very serious one.

Cloudy & clear, chilly.  
 Much better to-day.  
 This morning I walked  
 over to the Gray St.  
 and worked on the Local  
 Flora getting through quite  
 a bit of work - I walked  
 back by 12:30.

The first part of the P.M.  
 I felt rather poorly and  
 I lay down on the sofa  
 for a while and even  
 got a nap. I soon  
 quite understood it, for  
 on rising I soon felt  
 quite right again.

At 6:30 I drove in to  
 the Union Club (Sheridan)  
 taking Harry Spellman with  
 me to the Mc Dine, Wash.  
 Kidden, Wash. all but Char-  
 lie Batchelor present. We  
 had a very social time,  
 and a splendid dinner.  
 Harry drove home with me

Clear, cool, tracing.

At home all day  
this AM. I got out, the  
Shakespeare notices with  
Miss Brown's help. We shall  
read Merchant of Venice.

It's a good chest —

The rest of the day has  
been given to getting  
into shape. In Black  
the grasses from Prof  
Nichols (Hale, Oregon)  
and from Mrs. Chase. She  
has done fine work.  
Grasses (50 species from  
18 States in the Union  
neatly will send a  
few more. I have more  
than can ever be used.

I had a good talk over  
the volume that comes  
with J. R. Churchill. He  
has decided not to come  
over to the Park tomorrow  
evening. I may not go —

a pleasant talk with her.  
She could see my mittens.  
Then I hastened to N.  
Cambridge & called on Ned

This P.M.; I walked to Harvard Union and sat through the last half of the Harvard Yale Game. Telegrams were coming in fast & the blackboard showed the moves. Great enthusiasm, cheers, music etc etc

Harvard 10 - Yale 3.

Harv. at East has a game -

Then called on Mrs. Edds, but could not get an answer. I don't like the Rooker.

Then called on Mr. & Mrs. Bradford, first calling by mistake on Mr. Bro's sister with whom I had a good talk.

At home this evening busy as usual over a little of every thing.

Clear cold, calm

This Am. after some work at home I walked to Appleton Chapel & heard Bishop Lawrence preach a good sermon on Duty -

More & Milton Greenman came to dinner and we had a very pleasant time, and afterwards we sat in the parlor & talked -

Later we three walked down to the Widener Hall to see the Sargent paintings in the hall in either side representing a memorial to the Harvard boys who went over & met their death.

The paintings are very fine of course and we looked at them long. I walked home. This evening I have been making my list of gifts given & rec'd last Christmas. Quite a job -

Geo. W. Field's name was  
brought up & passed for further  
discussion. A paper by  
Barbours on "Birds of Cuba"  
He has been yachting in the  
work and the Club were  
very favourably impressed  
& voted to publish it,  
with Barbours' help. He will  
pay for illustrations, & half the text, <sup>some</sup> 600.

This evening Geo. took me  
in to the Selwyn house  
"Down to the Sea in Ships"  
a splendid story of whal-  
ing. The scenes were  
most remarkable, in-  
cluding the incidents  
in the life of the whale.  
It included the catching  
of the whale which you  
saw in the ocean, the  
many attendant events  
in connection with the  
life of the men. Remark-  
able throughout -

Clear calm cool.

This A.M. I walked  
to from Harv. Square  
to Trust Co. Corp. vs  
Bought a soft hat.

Kawolton came about  
2:45 P.M. We buckled  
down to the Local Flora  
and did a good bit of work  
though I hoped for more.  
We went from Convolvulaceae  
over  $\frac{1}{2}$  through Labratae.  
Kawolton hopes to get  
through in one year.

I have got my Xmas  
lists all ready for ac-  
tion. Mrs. Brown has  
helped much.

The hard thing to know  
is what all the family  
wants when they really  
want nothing.

I wish cards could be

Smith preached. I was dis-  
appointed - Walked back  
with Miss Ementon.

This P.M. at 2 o'clock I  
dined at Mary's with her,  
Ezra, Lucy & May. Pleas-  
ant, quiet time. After  
dinner I read a Xmas story  
to them at Mary's request.

Later I called on Mrs.  
Hed Reed whom I met yet.

Today, she wanted me to call  
at 6 P.M. A bright time.  
Saw her Edward, Anna Lem-

opening presents, especially  
cards of which I have  
a very large number.

This afternoon I went  
up to Mary's and we had  
all Chicago presents and  
dinner from each other.

Then I came home  
and have been busy  
getting the shirts ready  
for my brief talk on  
Friday next before the  
Bot. Soc. of America  
at the Amer. Acad Arts &  
Sciences on Newbury St.

I have listed everything  
of my presents and  
shall later put them  
into my book - I have  
a good many things more  
in fact than I expect to  
have - What I want is leisure

Cloudy - mild -

I have not felt up to the mark to-day and have staid at home - I have written letters &c &c.

This P.m. May Dexter called and looked over my Xmas presents -

Later Dr. J. M. Greenman called with more, and I did enjoy seeing him after so long a time. We had a good talk.

I shall see more of him this week as the Amer Acad & various societies meeting and claim his time, but

I shall have time to see him next week. Friday evening I say a few words on my seedling collection. That when it is over

### NOVEL WAR MEMORIAL

**Mr. Mathews's Illumination on Vellum  
for Town Hall of Campton, N. H., on  
View at Robinson Hall**

An unusual war memorial, in the form of an elaborate illumination in watercolors upon parchment, a triptych, set within a structural frame of carved wood gold-bronzed, is now on exhibition in Robinson Hall, Harvard University. It is the work of F. Schuyler Mathews, who is connected nominally with the university as botanical artist for the Gray Herbarium, and, aside from the authorship of botanical and ornithological books, Mr. Mathews is not so well known as an artist, who was a devoted pupil of Walter Crane, the English artist and designer. The war memorial in question will remain in Robinson Hall for about a week longer, when it will be shipped to Campton, N. H., where it will be hung in the town hall.

Campton, in the southern White Mountain region, is the place where Mr. Mathews has his summer residence and studio. It was famous in former days as a resort of New York and Boston landscape painters. It commands most beautiful views of the Franconia range. It sent to the war service twenty-eight of its sons and one daughter (as a nurse). Last summer the selectmen of the town asked Mr. Mathews to design a suitable memorial in recognition of the war services of its youth, and the illumination is the result. The ornamentation is exclusively drawn from stained glass designs from windows in Rheims and Soissons cathedrals, the glass of which is now destroyed.

## RUDOLPH BLASCHKA, WHO MODELED THE FLOWERS, AT WORK ON A NEW COLLECTION

Rudolph Blaschka, the artist who, with his father, modeled the famous "glass flowers" in the Botanical Museum at Harvard University, has begun work on a supplementary collection of glass models of grasses and sedges, which will be displayed on their completion in a room adjoining the Ware collection of glass flowers.

Funds for the first half-year have already gone forward to the artist, and Walter Deane, '70, formerly president of the New England Botanical Club, has consented to aid in providing him with American material for the construction of the new models.

The Ware collection now on exhibition will be practically complete when twenty models and fifty magnified anatomical details, now in the artist's studio in Germany, have been transported to this country. Under existing conditions it is unsafe to transport them, especially as their removal "in bond" to Boston cannot yet be secured. Up to the time of the war, the glass flowers were shipped direct to Boston and then by the courtesy of the Custom House officials were carried directly to the museum in Cambridge and were unpacked safely at the university.

The collection now illustrates 160 families of flowering plants, 540 genera, and 803 species, and there are more than 3200 analytical magnified details. The range of the exhibition is sufficiently extensive to give a clear idea of the relations of these important families and species to each other. The inimitable skill which has copied in glass every minute detail of structure of the plants, has been wholly devoted to Harvard University. All of the specimens which have been made since 1895 are the artistic handiwork of Rudolph Blaschka, who has carried on all of his study and his modelling single-handed in his studio in Germany.

Miss Jane E. C. Chapman, who died in Cambridge on Wednesday, after a brief illness, in her eighty-third year, was a native of Boston. She was the daughter of the late Dummer Rogers Chapman, an old-time Boston merchant, and her grandfather was Jonathan Chapman, a prominent citizen of his time. Miss Chapman's mother, Jane Eliza Chapman, was before her marriage a Miss Coolidge. For a long period of her life Miss Chapman lived in Boston, but the past twenty-seven years had been spent in Cambridge, where she and her sister, Miss Emily D. Chapman, who is the only immediate relative left, made their home at 34 Buckingham street. Miss Chapman was a Unitarian—a life-long member of the Arlington Street Church. She had always been deeply interested in philanthropic activities.

### JUDGE JENNEY IN HOSPITAL

Justice of the Supreme Court is a Patient at Peter Bent Brigham, and a Consultation Will Determine If an Operation Is Necessary

Judge Charles F. Jenney of the Massachusetts Supreme Court, whose home is in Hyde Park, is a patient at the Peter Bent Brigham Hospital, where he was taken Monday. He has been under observation by the physicians who will determine soon whether an operation is necessary. He was taken ill ten days ago and was confined to his room until taken to the hospital. There have been symptoms of inflammation of the gall bladder.

Judge Jenney is a native of Middlebury and is sixty-two years of age. He was graduated from Boston University in the class of '83. He has practised in both Hyde Park and Boston, has been a member of the House and of the Senate and was made associate justice of the Superior Court in 1900, and appointed to the Supreme bench in 1919.

## N. E. NATURALISTS CONVENE

**Federation Opens Annual Meeting at  
Children's Museum, Cambridge—Exhibit  
Tonight and Tomorrow**

Delegates from a dozen branches of the New England Federation of Natural History societies gathered in Cambridge today for the opening day of the annual exhibition and business meeting of the organization, to be held this year in the Museum for Children, Jarvis street. Inspection of various exhibits was scheduled for this afternoon, when tea was served between four and five o'clock. A social program has been arranged for this evening, when Walter Deane of the New England Botanical Club, and L. B. Fletcher of Brookline will deliver informal lectures, and the public will be welcomed.

The business session of the federation will open at ten o'clock tomorrow morning. John Ritchie, president, and J. H. Emerton, secretary, will be in charge. The exhibition will close tomorrow evening. Principal exhibits this year will include numerous specimens of plants developed from seeds gathered in wool-waste by Miss Emily Fletcher of Westford; seedlings in various stages of development arranged by Walter Deane; and a large collection of drawings of mushrooms, and spore-prints made under the supervision of Mrs. E. B. Blackford of the Boston Mycological Club. J. H. Emerton will display his collection of New England spiders, including actual specimens and numerous drawings and charts; and Emile Williams of the New England Botanical Club will show a collection of photographs of trees of the Pacific coast.

Annual Spring Exhibition, Under Canvas in the  
Ernest B. Dane Garden, Is Producing  
Keen Rivalry Among Large Estates —

COLOR, fragrance and beauty were placed on public exhibition today under canvas in the gorgeous flower garden on the Ernest B. Dane estate at Chestnut Hill, and the public went there to see the combination. It was the annual spring flower show of the Chestnut Hill Garden Society, assembled in the Dane garden, brilliant in colors and imposing in its splendor. It is one of the leading flower events of the year in the vicinity of Boston, and somewhat of a community affair. Today it is open to the public until six o'clock, and tomorrow it will be open again from ten o'clock in the morning until six o'clock in the afternoon, and visitors are advised to enter by way of Woodland road, which leads off from Heath street, at Chestnut Hill.

That these plants, many of which are extremely sensitive, may not be burned by the bright sun, canvas has been thrown over the entire flower garden, to enclose them. There are two tents, one housing the orchids, which have been arranged in the sunken garden, by the fountain, and the other enclosing the general flower collection. Powerful electric lights have been installed in the tents, and they were tried out last evening, when a private view of the show was given.

abundance that they dominate the exhibition of several groups of flowers in the larger tent, but they are pleasingly mediated by the delicate hues wrought into the wealth of bloom and foliage. Large urns and bird baths along the edges of the flower banks are used to advantage.

In the large tent there are six exhibits. Mrs. Ernest B. Dane has a mound of flowers just inside the tent opening, built up with choice collections from the green-houses—spireas, campanulas or bell flowers, godettias, hydrangeas, antirrhinum, fuchsias calceolarias, lilies, daisies and numerous other kinds of spring flowers. Back of this is another large display contributed by the C. G. Weld estate. There are in this collection some of the varieties that are shown by Mrs. Dane but the prominent clusters seem to be the calceolarias, the handsome blue lobellias, gloxinias, some rare geraniums, the blushing bride, balsam azalea, the Weld hybrid snapdragons, and godettias.

Across at the other end of the tent there is a wide bank predominating in marguerites and standard heliotropes, with rare orchids, pelargoniums, and spireas for a blending of colors. Directly in front is a circular fountain overspread with roses and gypsophillas which most people know as baby's breath. This has been contributed by Mrs. Richard M. Saltonstall. Between this and the Dane section there is a square filled high in air by Edwin S. Webster.

An award for the best wild garden, which included pink lady slippers gathered in the woods of Chestnut Hill, went to Robert Duncan. Mrs. F. S. Mead won a prize for the best Japanese arrangement of flowers, with second prize in this class going to Mrs. Edwin S. Webster.

In the class for table centrepieces the first prize was given to Mrs. William Ellery, with Mrs. Webster second and Mrs. C. S. Houghton third. A blue ribbon for the best display of flowering plants went to Edwin S. Webster, whose exhibit included godetias, clarkias, calceolarias, antirrhinum, azaleas, pamelias, campanulas and fuchsias. In this class second prize was given to Mrs. C. G. Weld and third prize to Mrs. Richard M. Saltonstall. Honorable mention was awarded to Mr. Dane and Arthur T. Bradlee. Honorable mention for a display of calceolarias went to Mrs. Andrew Adie who also received honorable mention for her collection of fuchsias.

A vase of cut flowers shown by Mrs. Webster received a prize and Mrs. Saltonstall's exhibit of potted strawberries was given honorable mention. One of the interesting features of the exhibit was a display of rhubarb, cucumbers, lettuce and asparagus grown at Roughwood, and this was given honorable mention.

Once in a while the east wind takes a hand in local affairs just when its services are most needed and today is one of the occasions. It brought in from the ocean a wave of cool air that hit the hot wave right between the eyes and put it down for the count. So effectively was its work done that from a maximum of 92 yesterday, the mercury slid down to a minimum of 60 this morning at five o'clock, or a drop of thirty-two degrees in fourteen hours. The difference was so great that this morning felt really chilly.

Whether the relief is more than temporary is doubtful. The forecast calls for local showers tonight and Sunday, but after that there is every prospect of a return to higher temperature readings, for in Chicago at seven o'clock this morning (Eastern standard time) the temperature was 76. That was fully as hot as at any time during the hot spell of this week, which struck the Middle West before it arrived here.

EDES'—At Cambridge, at his house, 62 Buckingham street, on Friday, Oct. 13, Henry Herbert Edes, son of the late Henry Augustus and Sarah Louisa Edes of Charlestown, aged 73 years. The funeral will be held at the First Church in Boston on Monday, Oct. 16, at 12 o'clock.

**HENRY H. EDES DEAD**

**He Was Native of Charlestown, Had Done Much Historical Research, Was Member of Many Organizations and Had Been Honored by Harvard**

Henry Herbert Edes, long identified with many organizations both historic and otherwise, died this morning at his home 62 Buckingham street, Cambridge, following an illness of a few weeks. Mr. Edes was in his seventy-third year, and for a long time he had been manager of the Conveyancers Title Insurance Company with offices at 20 State street, having begun his association with this concern back in February, 1889.

Mr. Edes was born in Charlestown March 20, 1849, and he was the son of Henry Augustus and Sarah Louise (Lincoln) Edes. He was educated in the Charlestown schools, and was made an honorary member of the Harvard Chapter of the Phi Beta Kappa in 1898, in 1905 received an A. M. degree from Harvard, and he had been a member of the visiting committee in history at the college since 1907.

Date.

He was a Fellow of the American Academy of Arts and Sciences, for which he had been at various times treasurer and member of the Council; member of the Colonial Society of Massachusetts, on which he also had been treasurer, and a member of the Council; American Antiquarian Society, American Historical Association, the Historical societies of Massachusetts, Maine, Rhode Island and Wisconsin, the Essex Institute, New England Historic-Genealogical Society, Cambridge Historical Society, of which he had been treasurer; Unitarian Historical Society, of which he had been president; the Bunker Hill Monument Association, and had at one time been its vice president. Under municipal contract Mr. Edes had arranged and bound the manuscript records and archives of Charlestown from 1630 to 1947, which comprise more than one hundred volumes.

On matters of historical research Mr. Edes had made many valuable contributions. He was the author of "Memorial of Josiah Barker," published in 1871; "History of the Harvard Church in Charlestown," issued in 1879; "Historical Sketch of Charlestown," which is incorporated in a "Memorial History of Boston"; "John Davis of York and His Thanksgiving Proclamation of 1681"; "The Places of Worship of the Sandemanians in Boston." "Documents Concerning the Early History of Yale University," "John Winthrop, the First Recipient from Harvard College of the Degree of Doctor of Laws," "Memoir of Robert Charles Winthrop, Jr.," and other volumes. He was also the author of many historical and general pamphlets, and was the editor of "Wyman's Genealogies and Estates of Charlestown," in two volumes, and Volume II. of "Foote's Annals of King's Chapel, Boston." He also had been the editor-in-chief of the Harvard Quinquennial catalogue since 1916. Mr. Edes was always intensely interested in the activities of the First Church and had served on many of its committees.

Mr. Edes in December, 1898, married Grace Williamson, daughter of William Cross Williamson of Boston, and she is his only immediate survivor.

## MISS ELIZABETH R. SIMMONS

She Was Native of Concord, Was Edu-  
 cated at Frank Sanborn's School, and  
 Had Taught Latin at Several Private  
 Schools.

Miss Elizabeth Ripley Simmons, who had  
 long made her home in Cambridge, died  
 this morning at the Charlesgate Hospital.  
 She was seventy-six years of age and was  
 the daughter of the late Rev. George F.  
 Simmons, who was a prominent Unitarian  
 divine of his time. Her mother was Mary  
 Emerson (Ripley) Simmons, and her grand-  
 father on this side was Rev. Samuel Rip-  
 ley of Concord who owned the Old Manse,  
 intimately identified with the literary  
 celebrities of that time. Miss Simmons  
 was educated at Frank Sanborn's school,  
 and had taught at several of the prominent

private schools, notably Miss Howard's in  
 Springfield, and Miss Ireland's in Boston,  
 at both of which she had specialized in  
 Latin. Up to a few years ago, when ill  
 health had compelled a curtailment of  
 her activities, she had been a regular at-  
 tendant at the First Parish Church, Cam-  
 bridge. Her nearest survivor, is a brother,  
 Edward Simmons, a prominent artist of  
 New York city; and two nephews, George  
 Simmons of Philadelphia and William  
 Simmons of New York.

### Funeral Services for Business Man and Historian Are Held at First Church

Funeral services for Henry Herbert Edes of Cambridge, for many years manager of the Conveyancers Title Insurance Company, and widely known for his interest in historical and literary subjects, were held this noon in the First Church in Boston, in the presence of a large number of men and women prominent in the business, professional and intellectual life of the city. Among the organizations which were officially represented were the American Antiquarian Society of Worcester, American Academy of Arts and Sciences, Massachusetts Historical Society, Colonial Society of Massachusetts, Essex Institute of Salem, New England Historic Genealogical Society, the Club of Odd Volumes, the Bostonian Society, and the Unitarian Historical Society.

The service was conducted by Rev. Charles E. Park, D. D., minister of the church, who pronounced an eloquent tribute to the character and accomplishments of Mr. Edes. John P. Marshall, organist, played Chopin's "Funeral March," "Cujus Animam," and the "Andante" from Beethoven's "Fifth Symphony" for a prelude. During the service the congregation sang "While Thee I Seek" and "How Happy Is He Born and Taught," and at the conclusion of the service the church choir chanted the "Nunc Dimittis." The postlude was Handel's "Largo."

South Georgia, the first Antarctic land ever discovered, has now come into prominence through the death of the great British explorer, Sir Ernest Shackleton, and is associated with some of the most dramatic incidents of his career.

South Georgia is a typical example of the mountainous islands which encircle the Antarctic continent, a region of great scenic beauty, and supports a varied and interesting aggregation of animal life in the form of sea birds and marine mammals. The island has also become the world's greatest center of whaling. Doctor Murphy, who made an expedition to South Georgia in an American whaling brig, will tell something of its history and of the ways of sea elephants and other extraordinary creatures which make their home there.
